

Kubota

CONSTRUCTION EQUIPMENT

Keep working at your best with **Kubota Orange Plus.**

You take pride in your work, we take pride in ours. That's why we want to make sure that you have the tools to help manage your operating costs. Currently available for the SVL and SSV Compact Track and Skid Steer Loader and select excavators, **Kubota Orange Plus** offers three value-add and peace of mind products, including Maintenance, Warranty and Finance.

Kubota Orange Maintenance ensures you receive high-quality maintenance in accordance with Kubota's technical specifications with factory trained technicians to help maximize reliability and minimize downtime.

Kubota's Orange Protection Plan supports you through regularly scheduled maintenance, helping you to effectively manage costs.

Kubota's Finance options can be tailored to meet your cash flow requirements. When coupled with Orange Maintenance and Orange Protection this not only helps to ensure your Kubota construction equipment is kept in peak condition to offer better reliability, but it also provides enhanced value and fixed operating costs.

Overall, **Kubota Orange Plus** offers great value and helps protect against rising costs and inflation to help manage your overall operating costs while maximizing your output, allowing you to focus on what you do best – being productive.

Orange Maintenance. **No time for downtime.**

Kubota Orange Maintenance puts your equipment in a prime position to help keep you working for the long haul. Regular scheduled maintenance by trained technicians is designed to ensure that issues are spotted early, enhancing equipment reliability, and maximizing uptime when it matters most.*

Your Kubota belongs on the jobsite, not in the shop.

Kubota Orange Maintenance offers a range of maintenance packages to suit your needs. This helps you to reduce your operating costs, while keeping your equipment working at peak performance.

Lower maintenance costs let you focus on what's important.

Season after season, with Kubota Orange Maintenance, you can enjoy peace of mind knowing that you are protected from the rising costs of maintenance over time.

* Technician travel costs / machine transport costs not included.

Planned maintenance is a powerful investment.

It's not just about saving on maintenance. It's also about ensuring you get the highest quality of service and genuine Kubota parts, designed specifically for your machine.

With six gold level packages ranging from 500 to 3,000 hours, you can purchase the one that best fits your needs. For example, if you purchase the 1,000 hour Planned Maintenance package, it includes regularly scheduled maintenance for the initial 50 hour maintenance, 250 hour maintenance and 500 hour maintenance service.

It takes adaptability and lasting durability to get the job done. That means making smart investments on all your equipment and helping to ensure that it's reliable and well-suited to your unique needs. That's where Kubota comes in.

Tailor-made financial solutions to suit your needs.

Kubota has a variety of purchase and leasing programs to meet your business needs. From cash flow matched payment plans to financing at great low rates, Kubota Canada's in-house financial services division can provide you with flexible solutions.

Exceptional Service. **Kubota Genuine Parts.**

We understand that downtime costs money, so when you need equipment support, you can count on parts and service from our extensive dealer network. Our service team uses Genuine Kubota Parts which are designed and manufactured to strict factory standards. You'll be able to help keep your Kubota equipment operating efficiently, and keep doing what you do best.

A Canadian Presence, **Focusing on Canadians.**

Kubota Canada takes pride in our Canadian-based operations with dealers in approximately 140 local communities across the country. We are focused on delivering products tested for Canada's tough climate and services that are there when you need them so that you can focus on getting work done.

The Orange Maintenance includes;(1) this package includes but is not limited to, filters, fluids, and regular maintenance items as outlined in the maintenance plan documentation provided with the construction equipment; (2) the customer will be responsible for contacting their dealer for the initial 50 hour service and every 500-hour interval of the construction equipments service life during this period to book a scheduled maintenance visit; and (3) the customer will be responsible for performing daily checks, regular visual inspections, and general monitoring of the construction equipment as outlined in the maintenance section of the construction equipments operator's manual. Costs associated with transport to and from the dealership are not included in this maintenance package.
